Notes to Consolidated Financial Statements

Three and six months ended June 30, 2006 and 2005

(Unaudited)

1. Basis of Presentation:

The accompanying unaudited financial statements have been prepared by the Company in conformity with accounting principles generally accepted in the United States of America applicable to interim financial information and with the rules and regulations of the United States Securities and Exchange Commission. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed, or omitted, pursuant to such rules and regulations. In the opinion of management, the unaudited interim financial statements include all adjustments necessary for the fair presentation of the results of the interim periods presented. All adjustments are of a normal recurring nature, except as otherwise noted below. These financial statements should be read in conjunction with Bingo.com, Ltd.'s (the "Company") audited consolidated financial statements and notes thereto for the year ended December 31, 2005, included in the Company's Annual Report on Form 10-KSB, filed March 29, 2006, with the Securities and Exchange Commission. The results of operations for the interim periods are not necessarily indicative of the results of operations for any other interim period or for a full fiscal year.

Certain comparative figures have been reclassified to conform to the presentation adopted in the current period.

During the quarter ended June 30, 2005, Bingo.com, Inc. completed a merger with its wholly-owned subsidiary Bingo.com, Ltd. The surviving corporation of the merger is Bingo.com, Ltd. which is domiciled in Anguilla, British West Indies. All of the outstanding common shares of Bingo.com, Ltd. were registered by Bingo.com, Inc. and Bingo.com, Ltd. under an S-4 registration statement dated March 3, 2005. The S4 registration statement became effective on March 8, 2005. The principal reason for Bingo.com, Inc.'s merger with its subsidiary Bingo.com, Ltd. was to facilitate Bingo.com, Inc.'s reincorporation under the International Business Companies Act of Anguilla, B.W.I. Anguilla, B.W.I. is a corporate tax free jurisdiction. Effective Thursday, April 7, 2005, the shares of Bingo.com, Ltd. began trading under the new ticker symbol "BNGOF".

2. Stockholder's Equity:

During the quarter ended March 31, 2006, the 252,000 shares for proceeds of \$22,600, which we exercised before the year ended December 31, 2005, were issued. During the quarter ended March 31, 2006, the holders of stock options exercised their options for 108,000 shares for \$8,575 at exercise prices ranging from \$0.05 to \$0.10 per share.

During the quarter ended June 30, 2006, the holders of stock options exercised their options for 300,000 shares for \$90,000 at exercise prices ranging from \$0.30 per share.

Prior to January 1, 2006, the Company accounted for our employee stock option plans under the intrinsic value method in accordance with the provisions of Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB No. 25") and related interpretations. As such, compensation expense under fixed term option plans is recorded at the date of grant only to the extent that the market value of the underlying stock at the date of grant exceeds the exercise price. Additionally, in periods prior to January 1, 2006, in accordance with SFAS No. 123 "Accounting for Stock-Based Compensation" ("SFAS 123"), since the Company has continued to apply the principles of APB 25 to employee stock compensation, pro forma loss and pro forma loss per share information has been

2. Stockholder's Equity: (Continued)

presented as if the options had been valued at their fair values. The Company recognizes compensation expense for stock options, common stock and other equity instruments issued to non-employees for services received based upon the fair value of the services or equity instruments issued, whichever is more reliably determined. Stock compensation expense is recognized as the stock option is earned, which is generally over the vesting period of the underlying option.

Effective January 1, 2006, the Company adopted SFAS No. 123(R), "Share-Based Payment" ("SFAS 123(R)") and related interpretations which superseded APB No. 25. SFAS 123(R) requires that all stock-based compensation be recognized as an expense in the financial statements and that such cost be measured at the fair value of the award. This statement was adopted using the modified prospective method, which requires the Company to recognize compensation expense on a prospective basis. Therefore, prior period financial statements have not been restated. Under this method, in addition to reflecting compensation expense for new share-based awards, expense is also recognized to reflect the remaining service period of awards that had been included in pro-forma disclosures in prior periods. Had expense been recognized using the fair value method described in SFAS 123 (R), using the Black-Scholes option-pricing model, we would have reported the following results of operations:

	Six Months ended June 30, 2005		Three Months ended June 30, 2005

3. Income Taxes

During the quarter ended June 30, 2005, Bingo.com, Inc. completed a merger with its wholly-owned subsidiary Bingo.com, Ltd. The surviving corporation of the merger is Bingo.com, Ltd. which is domiciled in the tax free jurisdiction of Anguilla, British West Indies. The merger is deemed to be a taxable transaction in the United States of America pursuant to IRC Section 367(a). The computed benefit / expense differed from the amounts computed by applying the United States of America federal income tax rate of 34 percent and various other rates for other jurisdictions to the pretax income / losses from operations as a result of the following:

	June 30, 2006	June 30, 2005
Computed "expected" tax (expense) benefit	\$ (25,209)	\$ (11,468)
Increase (reduction) in income taxes resulting from income taxes in other tax jurisdictions	146,950	(723)
Other	(856)	15,981
Change in taxation rates in other tax jurisdictions	-	-
Change in exchange rates	(110,124)	(27,601)
Merger of Bingo.com, Inc. with Bingo.com Ltd.	-	(2,158,214)
Change in valuation allowance	(10,761)	2,182,025
	\$ -	\$ -

The tax effects of temporary differences that give rise to significant portions of the deferred tax assets and deferred tax liabilities at June 30, 2006, and December 31, 2005, are presented below:

	June 30, 2006	December 31, 2005
Deferred tax assets:		
Net operating loss carry forwards	\$ 1,014,571	\$ 1,004,060
Valuation Allowance	(1,014,571)	(1,004,060)
	\$ -	\$ -

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those differences become deductible.

Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in assessing the realizability of deferred tax assets. In order to fully realize the deferred tax asset attributable to net operating loss carryforwards, the Company will need to generate future taxable income of approximately \$2,200,000 in Canada prior to the expiration of the net operating loss carryforwards. These net operating loss carryforwards begin expiring in 2007 in Canada.

OVERVIEW

We are in the business of developing and operating a bingo based Web portal designed to provide a variety of free and cash games, and other forms of entertainment, including an online community, chat rooms, contests, sweepstakes, tournaments, and more. We envision becoming the preeminent bingo-based Web portal on the Internet, using our bingo.com domain name and incorporating a variety of games and content to attract and retain a large number of subscribers. Our existing Website has attracted over 1,650,000 registered users. We intend to continue to build on this subscriber base to further develop our online presence.

During the quarter ended June 30, 2005, we commenced offering traditional bingo for cash to our players. We have obtained a license from, and commenced operating in Curacao, Netherlands Antilles.

We provide a variety of content, free of charge, to our players, including multiplayer theme bingo games, such as Astrology Bingo, Cupid Bingo, and the like, as well as online video poker, sweepstakes and slot machines. We also offer other forms of free entertainment such as fortune telling, chat rooms, and member profiles. In addition to our free content, we provide our players the opportunity to play bingo and other games for cash. With traditional bingo, in particular, our players can purchase bingo cards online for cash, with the winner of each bingo game played winning a percentage of the total cards purchased for that particular bingo game.

We intend to continue to build on the success of our Web portal by offering a greater depth and variety of content that we expect will hold subscribers and allow us to generate more revenue through our cash games.

We have made a significant investment in the development of our Website, purchase of domain name, branding, marketing, and maintaining operations. As a result we have incurred significant losses since inception, and as of June 30, 2006, had an accumulated deficit of \$9,286,441. However, for the last eight quarters, we have been profitable and management anticipates that this trend will continue.

CRITICAL ACCOUNTING POLICIES

Our discussion and analysis of our financial condition and results of operations are based upon our financial statements, which except for lack of all detailed note disclosures, have been prepared in conformity with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate these estimates, including those related to impairment or disposal of long-lived assets, contingencies and litigation. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We consider the following accounting policies to be both those most important to the portrayal of our financial condition and require the most subjective judgment:

- Revenue recognition; and
- Impairment of long-lived assets and long-lived assets to be disposed of.

Revenue recognition:

The Company generates the majority of its revenue from offering traditional bingo and other games for cash. Gaming revenues have been recognized on the basis of total dollars wagered on all games less all winnings payable to players.

Advertising revenues have been recognized as the advertising campaign or impressions and clicks are made on the website and when collection of the amounts are reasonably assured. Cash received in advance of the advertising campaigns or impressions and clicks are recorded under unearned revenue.

Impairment of long-lived assets and long-lived assets to be disposed of:

The Company accounts for long-lived assets in accordance with the provisions of SFAS No. 144 "Accounting for the Impairment or Disposal of Long-Lived Assets" and SFAS No. 142 "Accounting for Goodwill and Other Intangible Assets". As of June 30, 2006, the only long-lived assets reported on the Company's consolidated balance sheet are equipment, intangible assets and domain name rights. These provisions require that long-lived assets and certain identifiable recorded intangibles be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceed the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount and the fair value less costs to sell.

RESULTS OF OPERATIONS

Revenue

Total revenue increased to \$896,277 for the quarter ended June 30, 2006, an increase of 96% from revenue of \$457,339 for the same period in the prior year and an increase of 26% from revenue of \$710,011 in the first quarter of 2006. The increase in revenue over the second quarter of 2005 and the first quarter of 2006, is due to an increase in the number of players paying to play at Bingo.com. The Company commenced offering cash gaming on its website during the second quarter of 2005. Of the \$896,277 revenue for the quarter, the gaming provided revenue of \$883,127, a substantial increase from gaming revenue of \$43,361 in the second quarter of 2005 and an increase of 49% from gaming revenue of \$593,965 in the first quarter of 2006. We recorded advertising revenue of \$13,150 in the quarter ended June 30, 2006, a decrease of 97% from advertising revenue of \$413,978 in the second quarter of 2005 and a decrease of 89% from revenue of \$116,046 in the first quarter of 2006. This decrease is due to Managements decision to suspend the sale of advertising available to third parties in order to increase the number of players on our cash games, thereby increasing revenue.

Cost of revenue

We recorded cost of revenue of \$303,534 during the quarter ended June 30, 2006, an increase of \$192,221 or 172% compared to costs of \$111,313 for the same period in the prior year and an increase of 45% over costs of \$209,319 in the first quarter of 2006. The gross margin decreased to 66% for the quarter ended June 30, 2006, compared to 76% gross margin in the second quarter of 2005 and 71% gross margin in the first quarter of 2006. Cost of revenue consists of the cost of hosting the website, payment processing fees in relation to cash deposits, software license fees, the commissions paid on the sale of advertising and the domain name purchase payments. During the second quarter ended June 30, 2005, we commenced offering traditional cash gaming to our players. The increase in cost of revenue, compared to the second quarter of 2005 and the first quarter of 2006, is due to the increase in the number of players on our cash games. The decrease in the gross margin percentage is due to the suspension of the sale of advertising available to third parties, which has a greater gross margin percentage.

Sales and marketing expenses

Sales and marketing expenses increased to \$280,404 for the quarter ended June 30, 2006, an increase of \$215,126 (330%) over expenses of \$65,278 in the second quarter of 2005 and an increase of 41% over expenses of \$199,190 in the first quarter of 2006. Sales and marketing expenses include principally costs for marketing, prizes for our free game site and bonuses and incentives offered to players to encourage them to play more on the cash gaming site. This increase for the quarter ended June 30, 2006, compared to the second quarter of 2005 and the first quarter of 2006, is due to the increase in bonuses and incentives offered to players and an increase in the marketing of Bingo.com.

General and administrative expenses

General and administrative expenses consist primarily of premises costs for our office, legal and professional fees, and other general corporate and office expenses. General and administrative expenses decreased to \$108,677 for the second quarter of 2006, a decrease of 14% from costs of \$126,215 for the same period last year and an increase of 17% over costs of \$93,254 in the first quarter of 2006. General and administrative expenses have decreased in comparison to the second quarter of 2005 due to legal advice on merging the Company with its subsidiary in Anguilla, British West Indies, and the filing, of the Form S-4, Form SB-2 and the Form S-8 with the Securities and Exchange Commission. The increase compared to the first quarter of 2006, is as a result of travel expenses incurred in the attendance of the trade show, "Global Interactive Gaming Summit & Expo".

Salaries, wages, consultants and benefits

Salaries, wages, consultants and benefits increased to \$156,457 for the quarter ended June 30, 2006, an increase of 12% compared to salaries, wages, consultants and benefits of \$139,141 in the second quarter of 2005 and a decrease of 17% over salaries, wages, consultants and benefits of \$188,916 in the first quarter of 2006. This increase in salaries, wages, consultants and benefits compared to the second quarter of 2005, is due to the increase in personnel and an increase in the rates of pay. The decrease in salaries, wages, consultants and benefits compared to the first quarter of 2006, is due to fewer consultants employed.

Depreciation and amortization

Depreciation and amortization includes depreciation on our equipment and amortization of the intangible asset relating to the email list. Equipment is depreciated using the declining balance method over the useful lives of the assets, ranging from three to five years. The Intangible asset – email list is amortized over five years. Depreciation and amortization increased to \$15,384 during the quarter ended June 30, 2006, an increase of 22% over costs of \$12,564 during the same quarter in the prior year and an increase of 49% from costs of \$10,340 in the first quarter of 2006. The changes in depreciation and amortization can be explained due to the acquisition of equipment, especially computers and servers, for hosting of our website in Curacao, Netherlands Antilles.

Net income and income per share

Net income for the three months ended June 30, 2006, amounted to \$55,549, an income of \$0.00 per share, compared to a net income of \$1,522 or \$0.00 per share for the same period in 2005 and compared to a net income of \$18,594 or \$0.00 per share in the first quarter of 2006. The increase in net income is due to the increase in gaming revenue as a result of an increase in traffic.

Merger

During the quarter ended June 30, 2005, Bingo.com, Inc. completed a merger with its wholly - owned subsidiary Bingo.com, Ltd. All of the outstanding common shares of Bingo.com, Ltd. were registered by Bingo.com, Inc. and Bingo.com, Ltd. under an S-4 registration statement dated March 3, 2005. The Form S-4 registration statement became effective on March 8, 2005. The principal reason for Bingo.com, Inc.'s merger with its subsidiary Bingo.com, Ltd. was to facilitate Bingo.com, Inc.'s reincorporation under the International Business Companies Act of Anguilla, B.W.I. Effective Thursday, April 7, 2005, the shares of Bingo.com, Ltd. began trading under the new ticker symbol "BNGOF".

The merger was accounted for as a reverse merger transaction, with Bingo.com, Ltd. being the surviving Company for financial reporting purposes. As a result the consolidated financial statements will be issued under the name of Bingo.com, Ltd., but are considered a continuation of the consolidated financial statements of Bingo.com, Inc. and therefore the assets and liabilities are recorded in Bingo.com, Ltd. financial statements at their historical value.

LIQUIDITY AND CAPITAL RESOURCES

We had cash of \$849,748 and working capital of \$747,637 at June 30, 2006. This compares to cash of \$1,071,088 and working capital of \$581,855 at December 31, 2005.

During the quarter ended June 30, 2006, we used cash of (\$226,787) from operating activities compared to using cash of (\$34,787) in the same period in the prior year. This increase in cash used is due to an increase in prepaid marketing expenses.

ITEM 3. Controls and Procedures.

(a) Evaluation of disclosure controls and procedures.

As required by Rule 13a-15 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the Company carried out an evaluation under the supervision and with the participation of the Company's management, including the President and Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures as of June 30, 2006. In designing and evaluating the Company's disclosure controls and procedures, the Company and its management recognize that there are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their desired control objectives. Additionally, in evaluating and implementing possible controls and procedures, the Company's management was required to apply its reasonable judgment. Furthermore, in the course of this evaluation, management considered certain internal control areas, in which we have made and are continuing to make changes to improve and enhance controls. Based upon the required evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that as of June 30, 2006, the Company's disclosure controls and procedures were effective (at the "reasonable assurance" level mentioned above) to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

From time-to-time, the Company and its management have conducted and will continue to conduct further reviews and, from time to time put in place additional documentation, of the Company's disclosure controls and procedures, as well as its internal control over financial reporting. The Company may from time to time make changes aimed at enhancing their effectiveness, as well as changes aimed at ensuring that the Company's systems evolve with, and meet the needs of, the Company's business. These changes may include changes necessary or desirable to address recommendations of the Company's management,

its counsel and/or its independent auditors, including any recommendations of its independent auditors arising out of their audits and reviews of the Company's financial statements. These changes may include changes to the Company's own systems, as well as to the systems of businesses that the Company has acquired or that the Company may acquire in the future and will, if made, be intended to enhance the effectiveness of the Company's controls and procedures. The Company is also continually striving to improve its management and operational efficiency and the Company expects that its efforts in that regard will from time to time directly or indirectly affect the Company's disclosure controls and procedures, as well as the Company's internal control over financial reporting.

(b) Changes in internal controls.

There were no significant changes in the Company's internal controls or other factors that could significantly affect the Company's internal controls subsequent to the date of their evaluation.

PART II – OTHER INFORMATION

ITEM 1. Legal Proceedings

On February 18, 2005, Campney & Murphy, a Partnership, who acted for the Company, as legal counsel, prior to their dissolution on or about August 31, 2003, filed a suit in the Supreme Court of British Columbia against the Company. The suit is related to non-payment of invoices of CAD\$57,556.02, plus interest, for services rendered prior to August 17, 2001.

We have taken the position that the amount claimed constitutes an amount significantly in excess of the value of the work performed. We have additionally taken the position that Campney & Murphy negligently breached its duty to the Company by failing to advise the Company as to certain corporate filings required under British Columbia law, with the result that the Company was put to unnecessary expense and damages. The Company is therefore seeking a set-off of some or all of the amount of the invoices on these bases. We are currently in negotiations with Campney & Murphy with a view to settling the litigation. There is, however, no guarantee that the settlement negotiation will be successful and, if not, we will defend the action in the Supreme Court of British Columbia.

We are not currently a party to any legal proceeding, other than the case listed above, and was not a party to any other legal proceeding during the quarter ended June 30, 2006. Other than the case listed above we are currently not aware of any other legal proceedings proposed to be initiated against the Company. However, from time to time, we may become subject to claims and litigation generally associated with any business venture.
